Some History

Prescott was founded in 1864 when gold was discovered. It grew quickly as miners came in droves to discover their share of riches. Settlers came as did cowboys, gamblers and bawdy girls. It continued to grow and became the original territorial capital of the Arizona Territory.

Whiskey Row once had over 40 saloons. That's hard to imagine that so many drinking holes could fit into one small city block. Most of the "colorful" stories of Prescott's Wild West days are centered upon what typically went on in, around and about Whiskey Row. Just imagine a Saturday night when miners, cowboys, outlaws, gamblers and town folks stirred up the dust on the dirt street trying to decide which saloon or bawdy spot fit the interest of the evening.

We will have two caravans up to our Whiskey Row Run

One on Thursday for those that want an extra day to hang out, scout out the saloons, shop, eat, goof off and scout out the saloons again...☺ and another caravan on Friday. More info to come.
